

R_modify_response

```
graph LR; A[R_modify_response] --> B[get_jointtransf]; A --> C[get_transformation]; A --> D[get_variable];
```

A diagram illustrating the structure of the `R_modify_response` function. The function is represented by a black rectangular box on the left. Three blue arrows originate from the right side of this box and point to three separate white rectangular boxes on the right. The top arrow points to a box labeled `get_jointtransf`, the middle arrow points to a box labeled `get_transformation`, and the bottom arrow points to a box labeled `get_variable`. All boxes have black borders.

get_jointtransf
